ODAL PROCESS FLOW FOR ISSUANCE OF FULL LICENSE

RESPONSIBLE TO FUNCTION	PROCESS FLOW	REMARKS
PROVISIONAL ODA LICENSE HOLDER TO BUSINESS DEVELOPER ODAL EVALUATION COMMITTEE OR AFAB'S AUDITOR ODAL EVALUATION COMMITTEE TO AFAB BOARD. ODAL EVALUATION COMMITTEE TO AFAB BOARD. AFAB BOARD. ADMINISTRATOR TO APPLICANT	<pre>graph TD; START([START]) --> SUB[Submission of additional requirements]; SUB --> REV[Review and evaluation of Probity Check]; REV --> REP[Make an evaluation report of the probity check.]; REP --> DEC{Favorable evaluation result?}; DEC -- YES --> ENDOR[Endorse the application to the AFAB Board.]; DEC -- NO --> COM[Comply with the result and submit.]; COM --> REP; ENDOR --> REW[Review the endorsement report and the application.]; REW --> ISS[Issuance of the Full License.]; ISS --> END([END]);</pre> The flowchart illustrates the process for issuing a full license. It begins with a 'START' terminal, followed by a process step 'Submission of additional requirements'. This leads to 'Review and evaluation of Probity Check', which then leads to 'Make an evaluation report of the probity check.'. A decision diamond 'Favorable evaluation result?' follows. If the answer is 'YES', the process continues to 'Endorse the application to the AFAB Board.', then 'Review the endorsement report and the application.', and finally 'Issuance of the Full License.', leading to an 'END' terminal. If the answer is 'NO', the process moves to 'Comply with the result and submit.', which loops back to 'Make an evaluation report of the probity check.'.
